To  
The Director,  
Statsoft India.

Sub: Statistical Package STATISTICA with Data Mining.

I am delighted to inform you that the package that we have purchased at IMT Ghaziabad, recently has been successfully been used in my class. I teach BI course here at IMT Ghaziabad. There had been demonstration cum tutorial that you have kindly arranged in my class for 6 hours. We particularly find the data model very useful for our teaching and research in statistical pattern recognition. It has a great potential to be used extensively in our future research.

As a faculty, I am satisfied with the support and service that your team provided in my class. I look forward to our continued relationship regarding this matter.

Regards

Dr. J. Ranjan
