About *STATISTICA* and StatSoft

StatSoft Inc. is one of the largest global providers of analytic software. *STATISTICA* is an enterprise-wide, scalable, Web-enabled system that is used by a variety of industries in mission-critical applications where predictive modeling helps increase productivity and bottom-line profitability, while also helping protect life, increase safety, and save the environment.

While easier to use and more cost-effective than its competitors, *STATISTICA* is one of the most technologically advanced tools in the industry, with uncompromising attention to detail and overall quality, which ensures success for its users.

For two consecutive years, *STATISTICA* has been recognized as the primary data mining tool of choice in an annual survey of corporate and consultant data miners conducted by Rexer Analytics. *STATISTICA* was also recognized for receiving the highest satisfaction ratings among those surveyed.
