

STATISTICA VERSION 8

Concurrent Network License with borrowing

Installation Instructions

Notes:

1. **The installation of the Concurrent network version entails two parts: a) a server installation, and b) workstation installations on each of the client machines. The program will not function if the client installations are not completed.**
2. **Users running NT on their client machines must log in with Administrator permissions to complete the client installation. The installation makes necessary changes to the system. If the user is prompted to reboot during the installation, he/she must log in with Administrator permissions after rebooting to successfully complete the installation.**
3. **If you have a previous version of STATISTICA already on your computer, please use Control Panel - Add/Remove Programs to uninstall the old program so that data files created with earlier versions of STATISTICA will remain intact. Once this is complete, please proceed with the following instructions for installation.**
4. **All workstations must have Microsoft Internet Explorer version 5.5 or higher installed.**
5. **The server must be installed to a Windows 2000 operating system or later.**
6. **This software performs an automatic license registration online. Therefore, it is advisable to perform this installation on a computer that is connected to the Internet.**

Server Installation

1. Ensure that no other applications are running.
2. Insert the *STATISTICA* CD into the CD-ROM drive. The installation process should begin automatically. If the CD does not auto-start, browse the CD and double-click on *Setup.exe*.
3. The *STATISTICA* installation screen will appear. Click on *Install STATISTICA*.
4. The Welcome screen will appear. Click the *Next* button.
5. In the CD Key / Net ID dialog, enter the CD key and Net ID in the appropriate boxes. You will find the keys on a sticker on the front of the CD sleeve, below the serial number. Click *Next* to continue.
6. In the Install Code dialog, enter the Install Code. You will find the code on a sticker on the front of the CD sleeve. Click *Next* to continue.
7. Read the software license agreement, and then select "I accept the terms of the license agreement," and click *Next* if you agree with the terms and wish to continue the installation process.
8. Select *Typical Setup* then click *Next*. *Typical Setup* will install *STATISTICA* with the most common options; this is

the recommended selection. *Custom Setup* options are not covered in these instructions. If you have questions about the custom installation, please contact StatSoft technical support. Note: If you want to be able to use the *STATISTICA* program at the server machine in addition to at the workstations, you will need to perform a *Custom Setup* and choose the *Local Program File* installation option.

9. In the Customer Information dialog, enter the requested information in the appropriate boxes. The serial number is located on a sticker on the front of the CD sleeve. This information is required for setup to continue. Click *Next* to continue. Click *Yes* if your information was accepted correctly.
10. On the Choose Destination Location dialog, you may press the Change button to change the installation path or you may retain the default installation path. Press *Next* to continue.
11. You will then be asked to register your license with StatSoft. Fill in the requested information and click *Next*.
12. The following Register with StatSoft dialog allows you to select your method of software registration. Note that all *STATISTICA* products must be registered to obtain the full license. Automatically register *STATISTICA*, is the recommended option. Click *Next* on the Register with StatSoft dialog to continue.
13. *STATISTICA* will now attempt to automatically register your software. A dialog, stating your license has been successfully registered will open. Click OK. If the registration process fails, a different dialog will open, indicating the failure. See notes below for additional details of failed registration.
14. You will encounter a checkbox which, by default, will install the Multimedia files to your hard drive. These are movies that provide overviews of various aspects of the *STATISTICA* system. We recommend that you install them if you have sufficient disk space but they can also be viewed from the CD at any time
15. Press Yes if you would like a Desktop Shortcut to *STATISTICA*; press No if you do not.
16. To begin copying files to your machine, click *Install*.
17. You should receive a message stating that the installation is complete. You may be asked if you wish to reboot now or reboot later, depending on the components that were previously installed on your machine. If you are asked, it will be necessary to reboot before you run *STATISTICA*. Click *Finish* to complete the installation process
18. Share the *STATISTICA* directory to all users that need to run the workstation installation. Users must have read and execute permissions to all files and subfolders.

Workstation Installation

1. Ensure that no other applications are running.
2. Locate the Workstation Installer subfolder of the folder in which the *STATISTICA* program files were installed on the server. Double-click the *Setup.exe* file located in the Workstation Installer subfolder.
3. The Welcome screen will appear. Click *Next*.
4. Read the software license agreement, and then select "I accept the terms of the license agreement," and click *Next* if you agree with the terms and wish to continue the installation process.
5. Select *Typical Setup* then click *Next*. *Typical Setup* will install *STATISTICA* with the most common options; this is the recommended selection. *Custom Setup* options are not covered in these instructions. If you have questions about the custom installation, please contact StatSoft technical support.
6. You will encounter a checkbox which, by default, will install the Multimedia files to your hard drive. These are movies that provide overviews of various aspects of the *STATISTICA* system. We recommend that you install

7. Press Yes if you would like a Desktop Shortcut to STATISTICA; press No if you do not.
8. To begin installing click *Install* on the Start Copying Files dialog.
9. Your system will be updated and program files will be installed. If you receive any Version Conflict messages, it is recommended that you keep your existing file (click *Yes*).
10. If the workstation's system files need to be updated, you must restart your computer to finish the installation process. Click *Finish* on the Setup Complete dialog.
11. *STATISTICA* requires Microsoft Data Access Components (MDAC) version 2.1. If the workstation does not have MDAC 2.1 (or higher) installed, its setup process will be started when the computer restarts. To complete this setup process, you must restart your computer once more.
12. After the installation process has been completed, you will see the *STATISTICA* program group window, which will contain the appropriate *STATISTICA* application shortcuts.

Borrowing (Checking Out) Licenses

Borrowing licenses enables you to disconnect a workstation from the network and still be able to run *STATISTICA* on that workstation. To borrow (check out) a license:

1. Ensure that your *STATISTICA* license has been updated by following the steps in the Applying Your License File section of these installation instructions.
2. Start *STATISTICA* on the workstation.
3. From the *Help* menu, select *About STATISTICA*.
4. In the *About STATISTICA* dialog, select the *License* tab, and click the *License Management* button.
5. In the *License Management* dialog, highlight the feature to be checked out, and click the *Check-out* button.
6. The *Check-out Product* dialog is displayed. Enter the number of days that the license will be checked out. Click the OK button.
7. Repeat Steps 5 and 6 for any additional features you want to check out. Click the *Done* button.
8. Quit *STATISTICA*, and wait approximately 30 seconds for the license administration to synchronize with the server.
9. You may now disconnect the workstation from the network. *STATISTICA* can be used on that workstation for the number of days specified in Step 6.

Checking In Licenses

1. Reconnect the workstation to the network.
2. Start *STATISTICA* on the workstation.
3. From the *Help* menu, select *About STATISTICA*.
4. In the *About STATISTICA* dialog, select the *License* tab, and click the *License Management* button.
5. Highlight the feature to be checked in and click the *Check-In* button. To check in all licenses, click the *Check-In All* button. Click the *Done* button.
6. Quit *STATISTICA*, and wait approximately 30 seconds for the license administration to synchronize with the server.
7. The previously checked-out licenses are now available to all *STATISTICA* workstations.

Notes on failed registration

1. The software registration process can fail for several reasons including: exceeding the allowed number of installations for a serial number, lack of internet connection on the installed machine, incorrect serial number, or other technical difficulties.
2. If you would like *STATISTICA* installed on an additional computer, please contact StatSoft for information on our policy and additional pricing.
3. If some other issue has affected your registration, ensure that the computer is connected to the internet, and verify your serial number. Start *STATISTICA*. From the *Help* menu, select *Register*.
4. If the registration process still can not be completed, follow the instructions given in the *STATISTICA* start up dialogs, or contact Technical Support at (918)749-1119 or info@statsoft.com.
