

STATISTICA VERSION 8 Concurrent Network License

Installation Instructions for use with Terminal Server and Citrix

Notes:

1. These instructions focus on installation on Terminal Server and Citrix, but are applicable to any installation where the program files are to be installed locally at the server.
2. This type of installation requires that a license that contains the ability to use *STATISTICA* with Terminal Server has been purchased. If you are unsure whether or not you have such a license, please verify this with StatSoft before proceeding.
3. The installation of the Concurrent network version entails two parts: a) a server installation, and b) an optional workstation installation on the client machines.
4. Users running NT on their client machines must log in with Administrator permissions to complete the client installation. The installation makes necessary changes to the system. If the user is prompted to reboot during the installation, he/she must log in with Administrator permissions after rebooting to successfully complete the installation.
5. If you have a previous version of *STATISTICA* already on your computer, please use Control Panel - Add/Remove Programs to uninstall the old program so that data files created with earlier versions of *STATISTICA* will remain intact. Once this is complete, please proceed with the following instructions for installation.
6. All workstations must have Microsoft Internet Explorer version 5.5 or higher installed.
7. The server must be installed to an NT based operating system (Windows NT SP6 or greater).
8. This software performs an automatic license registration online. Therefore, it is advisable to perform this installation on a computer that is connected to the Internet.

Server Installation

1. Ensure that no other applications are running.
2. Insert the *STATISTICA* CD into the CD-ROM drive
3. The *STATISTICA* installation screen will appear. Close this window.
4. Select Add or Remove Programs, in the Windows Control Panel, click on Add New Program, and select the option to install from a CD or Floppy.
5. Browse the CD to the English folder, and select Setup.exe. Click the *Next* button.
6. The Welcome screen will appear. Click the *Next* button.
7. In the CD Key / Net ID dialog, enter the CD key and Net ID in the appropriate boxes. You will find the keys on a sticker on the front of the CD sleeve, below the serial number. Click *Next* to continue.
8. In the Install Code dialog, enter the Install Code. You will find the code on a sticker on the front of the CD sleeve. Click *Next* to continue.
9. Read the software license agreement, and then select "I accept the terms of the license agreement," and click *Next* if you agree with the terms and wish to continue the installation process.

10. Select *Custom*, then click *Next*.
11. In the Feature Selection dialog, leave both options selected. Click *Next* to continue. Deselecting either of these options may result in a nonfunctional installation. If you have any questions about this dialog, please contact StatSoft.
12. In the Please Select How to Install the Program Files dialog, select the Local Program File Installation option. Click *Next* to continue.
13. In the Customer Information dialog, enter the requested information in the appropriate boxes. The serial number is located on a sticker on the front of the CD sleeve. This information is required for setup to continue. Click *Next* to continue. Click *Yes* if your information was accepted correctly.
14. In the Concurrent Session Manager dialog, leave *Yes* selected. Click *Next* to continue.
15. In the Choose Destination Location dialog, you may alter the location to which the program files will be installed by clicking the Change button. Click *Next* to continue.
16. In the FlexLM Licensing Service dialog, you may alter the location to which the FlexLM Licensing Service will be installed by clicking the Change button. Click *Next* to continue.
17. In the Stat.lic dialog, select First Time Installation. Click *Next* to continue.
18. You can specify the ports that are used by the STATISTICA License Server. Unless your network administrator has advised you to change these port numbers, it is recommended to retain the default ports.
19. You will then be asked to register your license with StatSoft. Fill in the requested information and click *Next*.
20. The following Register with StatSoft dialog allows you to select your method of software registration. Note that all *STATISTICA* products must be registered to obtain the full license. Automatically register *STATISTICA*, is the recommended option. Click *Next* on the Register with StatSoft dialog to continue.
21. *STATISTICA* will now attempt to automatically register your software. A dialog, stating your license has been successfully registered will open. Click *OK*. If the registration process fails, a different dialog will open, indicating the failure. See notes below for additional details of failed registration.
22. In the Select Features dialog, it is strongly recommended that all items are left as defined. Click *Next* to continue.
23. In the Select Program Folder dialog, the default is recommended. Click *Next* to continue.
24. You will encounter a checkbox which, by default, will install the Multimedia files to your hard drive. These are movies that provide overviews of various aspects of the *STATISTICA* system. We recommend that you install them if you have sufficient disk space but they can also be viewed from the CD at any time
25. Press *Yes* if you would like a Desktop Shortcut to *STATISTICA*; press *No* if you do not.
26. To begin copying files to your machine, click *Install*.
27. You should then receive a message stating that the installation is complete. Click *Finish* to complete the installation process.
28. You may now close the Add or Remove Programs dialog.
29. Share the *STATISTICA* directory to all users that need to run the workstation installation. Users must have read and execute permissions to all files and subfolders.

Additional step for users of Citrix:

Using the Citrix Management Console, publish the *statist.exe* in the location to which you installed the program files. Call this published application, “*STATISTICA*.” More information on how to publish applications in Citrix can be found in the Citrix Management Console’s Help.

Workstation Installation

1. Ensure that no other applications are running.
2. Locate the Workstation Installer subfolder of the folder in which the *STATISTICA* program files were installed on the server. Double-click the *Setup.exe* file located in the Workstation Installer subfolder.
3. The Welcome screen will appear. Click *Next*.
4. Read the software license agreement, and then select “I accept the terms of the license agreement,” and click *Next* if you agree with the terms and wish to continue the installation process.
5. Select *Typical Setup* then click *Next*. *Typical Setup* will install *STATISTICA* with the most common options; this is the recommended selection. *Custom Setup* options are not covered in these instructions. If you have questions about the custom installation, please contact StatSoft technical support.
6. You will encounter a checkbox which, by default, will install the Multimedia files to your hard drive. These are movies that provide overviews of various aspects of the *STATISTICA* system. We recommend that you install them if you have sufficient disk space but they can also be viewed from the CD at any time
7. Press Yes if you would like a Desktop Shortcut to *STATISTICA*; press No if you do not.
8. To begin installing click *Install* on the Start Copying Files dialog.
9. Your system will be updated and program files will be installed. If you receive any Version Conflict messages, it is recommended that you keep your existing file (click *Yes*).
10. If the workstation’s system files need to be updated, you must restart your computer to finish the installation process. Click *Finish* on the Setup Complete dialog.
11. *STATISTICA* requires Microsoft Data Access Components (MDAC) version 2.1. If the workstation does not have MDAC 2.1 (or higher) installed, its setup process will be started when the computer restarts. To complete this setup process, you must restart your computer once more.
12. After the installation process has been completed, you will see the *STATISTICA* program group window, which will contain the appropriate *STATISTICA* application shortcuts.

Server Removing

In case you need to remove the *STATISTICA* server (for example, in order to install it on another server), follow these steps:

1. Ensure that no other applications are running.
2. Choose Control Panel - Add/Remove Programs and click the *Change* button in the *STATISTICA* item.
3. In the Welcome dialog, select the *Remove* option and click *Next*.
4. A confirmation message will appear asking if you want to completely remove the application and all of its features. Click the *Yes* button.
5. The *Uninstall Complete* screen will appear. Click the *Finish* button.

Workstation Removing

In case you need to remove a *STATISTICA* workstation, follow these steps:

1. Ensure that no other applications are running.
2. Choose Control Panel - Add/Remove Programs and click the *Change* button in the *STATISTICA* item.
3. In the Welcome dialog, select the *Remove* option and click *Next*.
4. A confirmation message will appear asking if you want to completely remove the application and all of its features. Click the *Yes* button.

5. The *Uninstall Complete* screen will appear. Click the *Finish* button.

Workstation Repairing

To repair your existing installation of *STATISTICA* on the workstation, follow these steps:

1. Ensure that no other applications are running.
2. Choose Control Panel - Add/Remove Programs and click the *Change* button in the *STATISTICA* item to repair *STATISTICA*.
3. In the Welcome dialog, select the *Repair* option and click *Next*.
4. The *Maintenance Complete* screen will appear. Click the *Finish* button.

Notes on failed registration

1. The software registration process can fail for several reasons including: exceeding the allowed number of installations for a serial number, lack of internet connection on the installed machine, incorrect serial number, or other technical difficulties.
2. If you would like *STATISTICA* installed on an additional computer, please contact StatSoft for information on our policy and additional pricing.
3. If some other issue has affected your registration, ensure that the computer is connected to the internet, and verify your serial number. Start *STATISTICA*. From the *Help* menu, select *Register*.
4. If the registration process still can not be completed, follow the instructions given in the *STATISTICA* start up dialogs, or contact Technical Support at (918)749-1119 or info@statsoft.com.
