

## WebSTATISTICA Version 8 Single Server Installation Instructions

### Notes:

1. Users running NT must log in with Administrator permissions to complete the client installation. The installation makes necessary changes to the system. If the user is prompted to reboot during the installation, he/she must log in with Administrator permissions after rebooting to successfully complete the installation.
2. If you have a previous version of *WebSTATISTICA* already on your computer, please use Control Panel - Add/Remove Programs to uninstall the old program so that data files created with earlier versions of *WebSTATISTICA* will remain intact. Once this is complete, please proceed with the following instructions for installation.
3. *The computer on which you are installing WebSTATISTICA is going to act as both the web server and the STATISTICA Server.* You should install the web server software on that computer before beginning the installation procedure.  
A web server may already exist at your site. If not, you may need to install Microsoft Internet Information Services (IIS) or its workstation equivalent, Personal Web Server (PWS), which is included with Windows NT 4.0 through XP Professional. On Windows NT 4.0 Workstation PWS is part of the NT Option Pack Setup. On Windows 2000 and XP IIS is a Windows Component. To install, open the Add/Remove programs dialog (button) from the Control Panel. Click on the Windows Components tab. Select Internet Information Services.
4. All workstations must have Microsoft Internet Explorer version 5.5 or higher installed.
5. The server must be installed to an NT based operating system (Windows NT SP6 or greater).
6. This software performs an automatic license registration online. Therefore, it is advisable to perform this installation on a computer that is connected to the Internet.

### SERVER Installation

1. Ensure that no other applications are running.
2. Insert the *STATISTICA* CD into the CD-ROM drive. The installation process should begin automatically. If the CD does not auto-start, browse the CD and double-click on *Setup.exe*.
3. The *STATISTICA* installation screen will appear. Click on *Install STATISTICA*.
4. The Welcome screen will appear. Click the *Next* button.
5. In the CD Key / Net ID dialog, enter the CD key and Net ID in the appropriate boxes. You will find the keys on a sticker on the front of the CD sleeve, below the serial number. Click *Next* to continue.
6. In the Install Code dialog, enter the Install Code. You will find the code on a sticker on the front of the CD sleeve. Click *Next* to continue.
7. Read the software license agreement, and then select "I accept the terms of the license agreement," and click *Next* if you agree with the terms and wish to continue the installation process.
8. Select *Typical Setup* then click *Next*. *Typical Setup* will install *WebSTATISTICA* with the most common options; this is the recommended selection. *Custom Setup* options are not covered in these instructions. If you have questions about the custom installation, please contact StatSoft technical support.
9. In the Customer Information dialog, enter the requested information in the appropriate boxes. The serial number is located on a sticker on the front of the CD sleeve. This information is required for setup to continue. Click *Next*

to continue. Click *Yes* if your information was accepted correctly.

10. On the Choose Destination Location dialog, you may press the Change button to change the installation path or you may retain the default installation path. Press *Next* to continue.
11. You will then be asked to register your license with StatSoft. Fill in the requested information and click *Next*.
12. The following Register with StatSoft dialog allows you to select your method of software registration. Note that all *STATISTICA* products must be registered to obtain the full license. Automatically register *STATISTICA*, is the recommended option. Click *Next* on the Register with StatSoft dialog to continue.
13. *STATISTICA* will now attempt to automatically register your software. A dialog, stating your license has been successfully registered will open. Click OK. If the registration process fails, a different dialog will open, indicating the failure. See notes below for additional details of failed registration.
14. You will encounter a checkbox which, by default, will install the Multimedia files to your hard drive. These are movies that provide overviews of various aspects of the *STATISTICA* system. We recommend that you install them if you have sufficient disk space but they can also be viewed from the CD at any time
15. Press Yes if you would like a Desktop Shortcut to *STATISTICA*; press No if you do not.
16. To begin copying files to your machine, click *Install*.
17. You should receive a message stating that the installation is complete. You may be asked if you wish to reboot now or reboot later, depending on the components that were previously installed on your machine. If you are asked, it will be necessary to reboot before you run *STATISTICA*. Click *Finish* to complete the installation process.
18. Share the *STATISTICA* directory to all users that need to run the workstation installation. Users must have read and execute permissions to all files and subfolders.

## Workstation Installation

1. Ensure that no other applications are running.
2. Locate the Workstation Installer subfolder of the folder in which the *STATISTICA* program files were installed on the server. Double-click the *Setup.exe* file located in the Workstation Installer subfolder.
3. The Welcome screen will appear. Click *Next*.
4. Read the software license agreement, and then select "I accept the terms of the license agreement," and click *Next* if you agree with the terms and wish to continue the installation process.
5. Select *Typical Setup* then click *Next*. *Typical Setup* will install *STATISTICA* with the most common options; this is the recommended selection. *Custom Setup* options are not covered in these instructions. If you have questions about the custom installation, please contact StatSoft technical support.
6. You will encounter a checkbox which, by default, will install the Multimedia files to your hard drive. These are movies that provide overviews of various aspects of the *STATISTICA* system. We recommend that you install them if you have sufficient disk space but they can also be viewed from the CD at any time
7. Press Yes if you would like a Desktop Shortcut to *STATISTICA*; press No if you do not.
8. To begin installing click *Install* on the Start Copying Files dialog.
9. Your system will be updated and program files will be installed. If you receive any Version Conflict messages, it is recommended that you keep your existing file (click *Yes*).
10. If the workstation's system files need to be updated, you must restart your computer to finish the installation process. Click *Finish* on the Setup Complete dialog.
11. *STATISTICA* requires Microsoft Data Access Components (MDAC) version 2.1. If the workstation does not have MDAC 2.1 (or higher) installed, its setup process will be started when the computer restarts. To complete this setup process, you must restart your computer once more.

## Server Removing

In case you need to remove *STATISTICA* (for example, in order to install it on another computer), follow these steps:

1. Ensure that no other applications are running.
2. Choose Control Panel - Add/Remove Programs and click the *Change* button in the *STATISTICA* item.
3. In the Welcome dialog, select the *Remove* option and click *Next*.
4. A confirmation message will appear asking if you want to completely remove the application and all of its features. Click the *Yes* button.
5. The *Uninstall Complete* screen will appear. Click the *Finish* button.

## Workstation Removing

In case you need to remove a *STATISTICA* workstation, follow these steps:

1. Ensure that no other applications are running.
2. Choose Control Panel - Add/Remove Programs and click the *Change* button in the *STATISTICA* item.
3. In the Welcome dialog, select the *Remove* option and click *Next*.
4. A confirmation message will appear asking if you want to completely remove the application and all of its features. Click the *Yes* button.
5. The *Uninstall Complete* screen will appear. Click the *Finish* button.

## Workstation Repairing

To repair your existing installation of *STATISTICA* on the workstation, follow these steps:

1. Ensure that no other applications are running.
2. Choose Control Panel - Add/Remove Programs and click the *Change* button in the *STATISTICA* item to repair *STATISTICA*.
3. In the Welcome dialog, select the *Repair* option and click *Next*.
4. The *Maintenance Complete* screen will appear. Click the *Finish* button.

## User Accounts

*WebSTATISTICA* validates users based on groups defined on the *STATISTICA* Server computer. These groups are:

- *SWS\_USER*
- *SWS\_DOWNLOADFILES*
- *SWS\_UPLOADDATA*
- *SWS\_UPLOADSCRIPTS*
- *SWS\_BATCHABLE*
- *SWS\_PORTAL*
- *SWS\_PORTALINTERACTIVE*
- *SWS\_ADMIN*

The bare minimum requirement for authentication on the *WebSTATISTICA* Server is to be a member of the *SWS\_USER* group.

Your installation procedure for *WebSTATISTICA* may automatically create these groups for you. If not, you can create these groups on the *STATISTICA* server using the Administrative Tools within the Windows 2000 or XP system. On Windows 2000 and XP you can achieve this by opening the Computer Management dialog from the Control Panel – Administrative Tools menu. If you navigate the tree, you will find Local Users and Groups listed. In the Groups folder, create the groups listed above .

Next, add Users to these Groups. Add all *WebSTATISTICA* users to the SWS\_USER group (*WebSTATISTICA* administrators as well as *WebSTATISTICA* users); then add the administrators to the SWS\_ADMIN group, and so on.

## Starting the Server

The *WebSTATISTICA* service will need to be started. To start the WebSTATISTICA service open a DOS command window and type “net start webstatistica”. Start the Internet Explorer Browser (version 5.5 or greater), and type in the web address. If you did not change the destination Web directory during installation, the address will be <http://yourwebserver/WebSTATISTICA>. By default on a local installation, the address will be <http://localhost/WebSTATISTICA>.

## Notes on failed registration

1. The software registration process can fail for several reasons including: exceeding the allowed number of installations for a serial number, lack of internet connection on the installed machine, incorrect serial number, or other technical difficulties.
2. If you would like *STATISTICA* installed on an additional computer, please contact StatSoft for information on our policy and additional pricing.
3. If some other issue has affected your registration, ensure that the computer is connected to the internet, and verify your serial number. Start *STATISTICA*. From the *Help* menu, select *Register*.
4. If the registration process still can not be completed, follow the instructions given in the *STATISTICA* start up dialogs, or contact Technical Support at (918)749-1119 or [info@statsoft.com](mailto:info@statsoft.com).
